- Enclosure Code indicates type of enclosure, if any, to accompany check, as follows:
 0 = Name-only (Designated Agent) check; no enclosure
 1 = Direct mail check, no enclosure
 2 = Treasury printed "Notice to Check Recipient" to accompany check
 3 = Turn-around payee document to accompany check

File Name: Vendor/Misc. Check Payment File

File Id: Enclosure Code 4 - Transportation Payment (With Tear-Off Slip) 11/

Output From: Agency, Electronic Certification System

Input To: VEN99002; Vendor/Miscellaneous Split Run

Footnotes:

- 4 = Transportation payment (tear-off slip to accompany check)
- 3 This field is reserved for spillover from Field #4, the Vendor ID, when the ID exceeds 9 characters. This reserved field, if less than three characters, must be right-justified with leading blanks.
- 4 For TIN compliance, this field must contain 9 digits. For a Vendor ID, the field may contain any alphanumeric combination. If less than 9 characters, an agency cannot use overflow fields. If more than 9 characters, the extra characters must be placed as a prefix in field #3 (Overflow Field A). If more than 12 characters, the excess continues as a suffix in Overflow Field B.
- 5 Agency identification (e.g. "VA AUSTIN", "SSA BALT") to be printed on the check. Agencies have the option to put any type of agency ID they feel pertinent (i.e. vendor numbers).
- 6 Payee name and Address - A maximum of five (5) lines may be used for payee name and address. The last address line must contain City, two-character State abbreviation, and ZIP Code. If fewer than 5 lines are used for the name and address, blank fill the remaining lines. For Enclosure Code 0 items only, Address Line 1 may contain data useful to the agency, e.g., social security number, distribution code; otherwise for Enclosure Code 0, this field will be blank.
- 7 Payee or Vendor ID Number Suffix - For agency use, otherwise blank. This field may be used by the agency if a TIN cannot be provided. see footnote 3 above.
- 8 TIN Code (Type of Payment Indicator): V = Vendor, M = Miscellaneous, X = Tax
O = OPM, R = RRB, B = SSA, D = SSI, C = VA
- 9 Number of Payment ID Lines:
Enclosure Code 2 - Number of Payment ID Lines to be printed on "Notice to Check Recipient("01" - "14").
Enclosure Codes 3 and 4 - "01" if second payment ID line is to be used for explanatory data, otherwise, "00", (Payment ID Line 1 contains a Treasury-generated legend).
- 10 Payment ID Lines 1 and 2 - for Enclosure Codes 0 and 1, the agency must use these fields to indicate reason for payment (e.g., "TRAVEL ADVANCE", "CASH REIMBURSEMENT") or these fields may contain vendor invoice numbers. If not used, blank fill.
- 10 Payment ID Lines 1 - 14 - for Enclosure Code 2, Treasury will print up to 14 lines of payment identifying data on a "Notice to Check Recipient". If fewer than 14 lines are needed, blank fill the remaining fields.
- 11 File sequence is Segment Number/Enclosure Code/Payee or Vendor ID Number.
